

Star IAR for Individual Accountability Framework

Everything you need to be certain about complying with Ireland's Individual Accountability Framework (IAF)

A strong, firm-wide culture of responsibility and ethical behaviour in Regulated Financial Services Providers (RFSPs) starts with the individual accountability of its senior executives. Now you can be certain you're complying with the Central Bank of Ireland's (CBI) guidance on the Individual Accountability Framework (IAF) regime with the Star Individual Accountability Regime (IAR) solution.

Star IAR Offers:

- Clarity on what you need to do
- Confidence you're always up to date
- Certainty of comprehensive and proactive governance and oversight
- Streamlined, consistent business processes and quality checking

Meet and Exceed the CBI's IAF guidance

Star IAR is a dedicated IAF solution that empowers in-scope RFSPs in Ireland to:

- Establish and maintain a Senior Executives Accountability Regime
- Support Fitness & Probity workflows for Senior Executives and Controlled Functions
- Effectively manage Common Conduct Standards attestation
- Monitor, investigate, and report breaches across the organisation
- Achieve IAF accountability and conduct standards

Our award-winning solution simplifies operational processes, supports greater efficiency and accuracy, while reducing costs and risk. It enables complete traceability and gives you confidence that you're meeting your regulatory obligations. Key benefits include:

Risk Reduction and Assurance

- Reduced risk of failures and fines
- Clear evidence of senior executives' fitness and probity
- Identification, assessment and oversight of controlled functions
- Complete visibility of IAF for all employees

Accuracy and Record-Keeping

- Built-in regulatory compliance
- Active compliance validations
- Complete version control
- Live change monitoring

IAF Time and Cost Savings

- Less disruption to your business
- Significantly reduced reliance on SMEs and stretched resources
- Decreased duplication of tasks and effort
- Elimination of time-consuming, error-prone manual processes

Efficiency and Transparency

- Ownership and responsibility of cross-functional compliance
- Full live audit and accountability trail
- Complete process control
- Configurable solution

Certainty is Good Business
