Actionable Compliance Data For Faster More Precise Decision-Making

Compliance is increasingly expected to do more with less. Yet there's more employee activity to monitor than ever. And more employee data piling up in more places. Star's Insight Driven Dashboards are changing the way businesses interact with their compliance data. They don't just bring you historical information. They surface the critical insights hidden within that information. The actionable intel you need to stay on top of risk firm-wide. So you can be proactive, not reactive. Insight Driven Dashboards automatically surface the compliance intel you need to make faster, more precise business decisions.

## The World Is Awash In Data

175 trillion gigabytes will be generated annually by 2025, nearly 3x what was generated in 2021.

## Star's Insight Driven Dashboards Address The Changing Challenges Of Compliance:

### Compliance Needs A Holistic View Of Employee Activity

Insight Driven Dashboards offer compliance officers an easy way to keep track of the riskiest activity facing their firm. Easily identify deviations from historical trends, like abnormally high trading volumes.

### Compliance Needs Faster Access To Actionable Insights

Conventional dashboards require compliance officers to seek insight. Insight Driven Dashboards automatically collect critical data and present it for intuitive consumption and quick analysis.

### Compliance Officers Need To Focus On High-Value Work

Compliance is more squeezed for time than ever. Insight Driven Dashboards give frontline managers the data they need to carry out the day-to-day monitoring compliance officers no longer have time for.
